

Sanlam Investments' history in the UK

Sanlam has a rich heritage that dates back over 100 years. During that time, we have gone from seven founders in Cape Town to a successful global business, managing over £58 billion (Dec 2022). We have been in the UK since 1996 and have built a business committed to giving people total, long term financial confidence.

We've been helping people protect and grow their wealth effectively for more than 100 years. The success of our business over this time is testament to why so many people have come to trust us – longevity, stability and a commitment to doing things properly.

Sanlam Investments UK is part of Sanlam Limited, an international financial services group with a listing on the Johannesburg Stock Exchange. Established in 1918, the group provides a broad range of services to more than 10 million clients globally, including insurance, financial planning, investments and wealth management.
